

SÉNUVO BODY SIMs™ FOR WEIGHT MANAGEMENT

Metabolize Fat and Reduce Appetite

The Centers for Disease Control and Prevention report that over 68% of adults are overweight and 35% are obese. The heaviest Americans continue to gain weight. Approximately 25% of 2-5 year olds and 33% of school age children are also overweight.¹ As this epidemic grows, our health declines and we open our pocketbooks wide to compensate. Americans spend over \$60 billion annually to shed pounds on everything from gym memberships and fitness programs to meal plans.² Over 108 million people are on diets right now. Even though most people are losing the battle of the bulge, Americans start and stop dieting an average of four times per year.³

SÉNUVO BODY SIMs™ - THE FUTURE IN HEALTH AND WELLNESS

Sénuvo Body SIMs™ for Weight Management naturally activate the body's ability to metabolize fat and reduce appetite. Sénuvo Body SIMs use electromagnetic waves to safely stimulate acupoints that enhance the body's ability to heal itself. Studies show that acupuncture may support weight loss by influencing the hormones that regulate obesity, appetite and metabolism. Acupuncture may also improve digestion and enhance the way nutrients are used in the body.⁴

"I started using Sénuvo Body SIMs for Weight Management about five months ago. I weighed 400 pounds and I was very skeptical. The first month I didn't change any of my habits. I only used the Body SIMs. I immediately noticed that my appetite was curbed and I didn't really want to eat junk food. I had so much more energy. I lost over 30 pounds in the first 30 days! After seeing great results, I changed my lifestyle, stopped drinking soda and started working out 3-5 times a week. My old clothes fit and I had more energy. Now I have been using Sénuvo Body SIMs for Weight Management for five months and I have lost 100 pounds! It feels great! The Body SIMs have changed my life and I look forward to losing another 100 pounds!"

THE POWER OF SÉNUVO BODY SIMs™

TESLA WAVES

Nikola Tesla was one of the most innovative scientists in history. His inventions include electric motors, Tesla coils and advancements in electricity, radio and remote controls. Tesla's research built a framework for modern day science. Tesla believed that everything in the Universe was made of waves of energy, frequency and vibration. At the time, no one believed Tesla but now science has proven him right. Just think about light waves, sound waves, radio waves, frequency and vibration.

“If you want to find the secrets of the Universe, think in terms of energy, frequency and vibration.”

- NIKOLA TESLA

THE MERIDIAN SYSTEM

Acupuncture is a Chinese healing technique that has been used for over 3,000 years. In 1997, the U.S. National Institute of Health recognized acupuncture as an effective treatment option for better health. Acupuncture improves the body's ability to heal itself by stimulating specific pressure points called acupoints. Acupoints are part of a complex network of electrical pathways known as the Meridian System. The Meridian System carries energy and information throughout the body. Injury, illness, stress, even pollution can obstruct these pathways, blocking the body's ability to heal and perform at its best. Acupoints can be stimulated with needles, pressure, heat and electrical stimulation, clearing pathways and improving overall health and wellness.

SÉNUVO BODY SIMs

Today, scientists understand that waves or frequencies affect the human body. For example, sunlight causes the human body to naturally produce vitamin D. Using cutting-edge research, Sénuvo Body SIMs™ (Synergy Infused Modulator) store electromagnetic waves with specific frequencies to produce a desired effect within the human body. Body SIMs safely stimulate acupoints. They are drug-free, chemical-free, and non-habit forming. Body SIMs are safe because they don't interact with medications, supplements or health concerns. Sénuvo Body SIMs are easy to use, produce quick results, and have no side effects. The medical grade adhesives used are hypoallergenic and won't irritate sensitive skin.
